Barack Obama said he used cocaine in high school and the press didn't care So why the angst against President Trump for taking hydroxychloroquine? If the remedy is useless so what? Why do they care?

632 1.6K 5.5K

Why? @the math quiz 34m

Trump out here claiming to take hydrochloriquine when we all know he purchased MILLIONS of pills and stockpiled them He'll pretend they work instead of taking accountability for wasteful spending on a drug that wasn t proven and has since proven to be ineffective and dangerous

Wasteful spending? It's dirt cheap.

Why didn't America's first black president do anything about police reform?

Why didn't either of his black Attorneys General?

Why didn't Joe Biden?

It took the man that the left always has called "racist" to get the job done

And they STILL hate him

Why is that?

Somehow we just KNEW that the #BubbaWallace noose story was a fraud. #JussieSmollett redux! And now we have been proven right. Yet NASCAR made a complete fool of itself, undoubtedly out of cowardice and fear. Toughen up, Nascar!

want to say how relieved I am that the investigation revealed that this wasn't what we feared it was. I want to thank my team, NASCAR and the FBI for acting swiftly and treating this as a real threat. I think we'll gladly take a little embarrassment over what the alternatives could have been. Make no mistake, though some will try, this should not detract from the show of unity we had on Monday, and the progress we've made as a sport to be a more welcoming environment for all.

Hey "Head" coaches! Your role as the "head coach" is not to mess around with players "heads" or to call them "weird". Your job is to encourage them and look at the results. It's shameful if you don't know that by now. Hope that's not too hard to understand.

scientific organizations change their recommendations, and we have seen multiple scientific studies retracted or at least highly debated. Many view this as proof that science doesn't work and/or scientists don't know what they are doing. In reality, this is exactly what we expect to see when science works. Science is a method, not a body of facts, and the method is often messy. Peer-review does not end with publication. Rather, studies are subjected to the scrutiny of the entire scientific community, and the fact that high-profile papers sometimes get retracted is evidence of science correcting itself. Similarly, the fact that scientists change their views as new evidence about a novel virus comes to light is a good thing! It means that scientists are learning and adjusting their views rather than clinging to biases and preconceptions.

That is a mindless & stupid question. Burning bibles does not pass contagious killer viruses & kill people & it a protected 1st amendment right. The church thing is a safety measure to try to save the lives of innocent people. Got it?

Let's make this clear:

Mail-in voting is the EXACT SAME THING as absentee voting.

The only difference?

Trump wants you to vote "absentee" if you are a Republican,

And stop your "mail-in" vote if you're a Democrat.

Trump wants to suppress the vote. We can't let him.

One of my ALL-TIME FAVORITE TRUE AMERICAN HEROES was George S Patton.. and he's had many awesome quotes, but today I offer this one.
"May God have mercy upon my enemies, because I won't".
This is how I look at Antifa and BLM on a daily occurrence as they try 2 destroy R country.

Just put in a new word 4 all the Karl's and Karens out there screaming about wearing masks. I offered this to the Webster Dictionary fascists.
"Maskaholic" . A person (or genderless binary thing) who runs around screaming and berating people who choose NOT to wear a "mask".

Typical Alinsky Rule 10 by this crazy clown. First, this was an "online" poll of 1,083 "members" and we have alone over 2m active duty personnel from ALL members and branches. I can tell u that as an Army Combat Infantry Officer and 2/75 Ranger we RARELY had ANY TIME for polls!

Hey Mr “Head” coach and “special teams” coach. When you just can’t decide to have your team block correctly on a PAT or short FG try this one by one step I designed over 30 yrs ago. That way your kicker won’t get mauled and the PAT/FG won’t get blocked.

Point is that even though she 'closed' the business she got trademarks from China more rapidly than other applicants, as US-China negotiations were going on, and some are valid until 2028. Now do the other issues.

Point is that even though she 'closed' the business she got trademarks from China more rapidly than other applicants, as US-China negotiations were going on, and some are valid until 2028. Now do the other issues.

Rep. Nadler @RepJerryNadler 30 syysk

Today, Trump officially missed the deadline to set the number of refugees to be admitted in FY2021 which will bring our nation s refugee admissions program to a halt

President Trump s lawlessness has eroded America s moral authority and placed thousands of lives in danger

Nadler, Lofgren Denounce Trump Administration for Failing to Set Refugee Admissions Goal for Fiscal Year 2020

Washington, D.C Section 207 of the Immigration and Nationality Act (INA) requires that the President—by today, September 30—set the number of refugees that will be admitted to the country during the upcoming fiscal year after a consultation with Members on the House and Senate Judiciary Committees This year the Administration has neither scheduled a consultation, nor set the number of refugees that will be admitted in fiscal year 2021 House Judiciary Committee Chairman Jerrold Nadler (D-NY) and Immigration and Citizenship Subcommittee Chair Zoe Lofgren (D-CA) released the following statement in response

"For the third year in a row this Administration is in violation of the immigration laws, specifically the refugee program requirements added by the Refugee Act of 1980 This President has shown on countless occasions that he believes he is above the law This time refugees—including many who served alongside our troops—will be the victims of the Trump Administration s lawless approach The Administration s violations will bring our refugee admissions program to a halt, leaving thousands stranded abroad with their lives at risk

"For more than a decade Republican and Democratic administrations have recognized the importance of the refugee admissions program, consistently holding a consultation and finalizing the refugee determination prior to the end of the fiscal year This year the Administration has failed to take any steps to set the number of refugees that will be admitted next year and has placed a moratorium on refugee admissions until October 26. We need to restore the refugee program and our moral authority around the world.

well. Hitlary said back in 2016 that she asked "State" to release them and Mike Pompeo is the "State" guy right. So, he's just doing what she said she wanted "State" to do. But this might be too hard for liberals to follow.

The Franklin County Board of Elections announced that 49,669 voters in the county received an incorrect ballot. In a statement, the board said they have "already begun the process to print, stuff, and mail the 49,669 replacement ballots."

Franklin County Board of Elections Determines 49,669 Voters Received Inaccurate Ballots; Board Will Send Corrected Ballots

[Columbus] The Board of Elections and vendor BlueCrest determined that 49,669 voters received an inaccurate ballot. Those ballots were part of 237,498 mailed through the United States Postal Service. The Board's primary goal is to have all 49,669 impacted voters cast their correct ballot.

The board has already begun the process to print, stuff, and mail the 49,669 replacement ballots and expect them to be sent to the United States Postal Service within 72 hours for delivery. Additionally, while the replacement ballots are processed, the board will mail informational postcards to all impacted voters that detail the situation and highlight the voter's multiple voting options moving forward.

We want to make it clear that **every voter who received an inaccurate ballot will receive a corrected ballot.** Stringent tracking measures are in place to guarantee that a voter can only cast one vote. That process includes the following steps:

- Redundancies are built into our system to ensure every voter is allotted only one voted ballot.
- Sorting systems will drop out and not accept any replacement ballots that are submitted if a voter has already voted in person.
- Nightly runs are issued to check all incoming ballots against earlier submissions or a vote cast in person.
- Election Day voting of anyone who has an active absentee ballot MUST vote provisionally.

Voters who do not want to wait for a replacement ballot to be mailed can vote at the in-person early voter center at 1700 Morse Road, Columbus. See hours on our website at vote.franklincountyohio.gov. Voters that vote in-person at the Early Vote Center will be able to vote a regular ballot, not a provisional ballot.

The Franklin County Board of Elections would like to thank the voters of Franklin County for their patience as we strive to fulfill our goal to administer safe, fair, impartial and accurate elections.
